*an excerpt about **Swedenborg** (see website for full article)*

*In April of 1745 he underwent a penetrating experience. In London, while dining alone at an inn where he often went, Swedenborg noted that the room seemed to grow dark. He then saw a vision, and an apparition spoke to him. When the room cleared again Swedenborg went home to his apartment, considerably stirred by his experience. During that night he again saw the vision. A spirit reappeared and spoke with him regarding the need for a human person to serve as the means by which God would further reveal himself to men in somewhat the manner of the biblical visions of the Old Testament. Swedenborg came to believe that God had called him to bring a new revelation to the world, and from 1745 until his death twenty-seven years later he spent the bulk of his time adding theological works to his already lengthy scientific and philosophical writings. Few transcendent experiences recorded in human history encompass such a sweeping claim. See rest of article on website.....*

*Based on the Holy Bible, The New Church gains further inspiration and understanding through the teachings of 18th century scientist and theologian [Emanuel Swedenborg](#). In his 35 volumes of theology, Swedenborg helps set forth the Lord's plan for a rebirth of Christianity, a clear vision of God in His own Word, and what that means in our lives.*
